Bachelor of Arts

S. K. Somaiya Degree College of Arts, Science And Commerce • 2018

HSC

Model College • 2014

SSC

Christ King • 2012

CERTIFICATIONS

Web Development and Advanced Web Graphic Designing

QUASTECH Software training institute

PROJECTS

Currency Converter

Created a dynamic currency converter app leveraging React to provide exchange rate conversions. The app supports multiple currencies, and fetches data from a reliable API. Implemented responsive design principles to ensure seamless functionality across various devices. [click here](#)

Todo App

This React Todo App allows users to add and delete tasks, utilizing React's state management and component-based architecture. [click here](#)

Registration Form

Designed and implemented a basic user-friendly Web registration form using PHP for capturing and managing user data. The form includes validation and data storage capabilities which is stored in the server. [click here](#)

Dynamic Website

A Dynamic Responsive Website built with Bootstrap and JavaScript with Dark mode. This project demonstrates my proficiency in Bootstrap and CSS. [click here](#)

WordPress Website

Developed and customized a dynamic WordPress website. Focused on creating an engaging, responsive design to enhance user experience and site functionality. [click here](#)
